

Some of the stories in this edition...

## Drug shortages: A critical issue impacting women

The recent drug shortage is impacting ovarian cancer patients here in Minnesota. Look inside to find the story of one Minnesota survivor – and find out how you can make your voice heard on the issue.

## Spring MOCA Living Well Meetings

If you're looking for information and resources on ovarian cancer, a **MOCA Living Well** meeting is an essential resource. Click on the MOCA Messenger link to find details on our March and April meetings!

## MOCA Mentor Program

MOCA Mentors are survivors who provide one-on-one support with other newly diagnosed women. In this month's edition, we highlight this important program available to women and families.

MOCA's Spring Newsletter is now available online.
